# How to Disable Ad-Blocker?

### How to disable Chrome built-in Ad-blocker for Desktop and android?

2. **Click the three dots icon.** It's the icon with three vertical dots in the top-right corner of the browser. This prompts a menu to open.

3. **Click Settings.** It's near the bottom of the menu. This opens the Settings menu in a new tab.

	B	☆		• :
New tab				Ctrl+T
New window				Ctrl+N
New Incognito windo	w		Ctrl	⊦Shift+N

Settings				
Help				P.

4. Click Privacy and Security. It's in the menu bar to the left. It's next to an icon that resembles a shield.

5. Click Site Settings E: . It's near the bottom of the Privacy and Security menu. It's next to an icon that resembles three slider bars.

R	Ad privacy Customize the info used by sites to show you ads
0	Security Safe Browsing (protection from dangerous sites) and other security settings
	Site settings Controls what information sites can use and show (location, camera, pop-ups, and more)

 Click to expand Additional content settings. It's at the bottom of the menu. This expands the menu and displays more options below the "Additional content settings" header. (If you already see options below this header, you don't need to click anything.)

7. Click Intrusive ads. It's next to an icon that resembles a web browser.

8. Select "Any site you visit can show any ad to you." Click the radio button next to this option. This disables Google Chrome's built-in ad blocker. (<u>To re-enable the ad blocker</u> on Google Chrome again, navigate back to this menu and click the radio option next to "Ads are blocked on sites known to show intrusive or misleading ads.")

### How to disable Ad-blocker in Chrome desktop?

1. Open the Chrome web browser

3. Click Extensions. It's about halfway down the menu. This displays a fly-out menu.

History				•
Downloads				Ctrl+J
Bookmarks				►
Google Password Mar	nager	New		
Extensions				×.
Zoom	-	100%	+	53

4. **Click Manage Extensions.** It's at the bottom of the fly-out menu. This displays a list of all extensions you have installed on your Google Chrome web browser.

	Bookmarks		•
	Google Password Manage	r New	
Manage Extensions	Extensions		►
Visit Chrome Web Store	Zoom –	100% +	53

5. **Find your ad blocker in the list of extensions.** Each extension, like Adblock Plus or uBlock Origin, has its own options box on the Extensions page, listed alphabetically. (If you know its name, you can search for it by pressing **Command+F** (Mac) or **Ctrl+F** 

	Q Search extensi	ons	
ABP	Adblock Plus - free ad blocker Download Adblock Plus, one of the world's most popular ad blockers.	4	Google Docs Offline Get things done offline with the Google Docs family of products.
Details	Remove	Details	Remove
		-	
rome Ap	Docs		Sheets
rome Ap	Docs Create and edit documents		Sheets Create and edit spreadsheets

(Windows) and typing its name into the "Find" bar in the upper-right corner.)

6. Click the toggle switch in the extension box. The enable/disable toggle switch is in the lower-right corner of the box for each extension. If the toggle switch is grey and to the left, the extension is disabled. To enable the ad blocker again, navigate back to this menu and click the toggle switch. Alternatively, you can click the extension's icon in the top right corner of your browser (there is an area for extension icons to the right of the address bar) and click **Pause on this site** (for uBlock Origin, press **Ctrl** and click to disable the adblock on a specific site). By disabling your ad blocker this way, you'll only be turning it off for the current site you're visiting.

#### How to disable Ad-blocker in Safari desktop?

1. **Open Safari.** This app icon resembles a blue compass that you'll find in the Dock.

2. **Click Safari.** This option is in the menu bar at the top of the screen in the upper-left corner next to the Apple logo.

3. Click Settings... (or Preferences...). It's usually the third option in the Safari menu and opens the Preferences window.

4. **Click the Websites tab.** It's below an icon that resembles a globe at the top of the page.

					We	bsites			-	
	င့်္သိ General	C Tabs	AutoFill	Passwords	Q Search	A Security	(D) Privacy	(Websites	ဉြာ ixtensions	හි <sub>ලා</sub> Advanced

	Camera			<u>^</u>	10077.10	,			Allow		
	Microphone										

7. Select Allow at the bottom of the page. To allow pop-up from all sites you visit, select Allow next to "When visiting other websites." It's in the lower-right corner.

8. **Click the Extensions tab.** It's below the icon that resembles a blue puzzle piece at the top of the Preferences window.

					Exte	ensions		-			
	င်္ဂြဲဒွဲ General	Tabs	AutoFill	Passwords	Q Search	Security	Drivacy	() Website	චා Extensions	හි <sub>ල</sub> Advanced	
<ul><li>✓ ()</li><li>✓ ()</li></ul>	AdBlock E AdBlock Id	ngine									

9. Click the checkbox next to all enabled ad blockers to clear them L. All extensions and ad blockers are listed in the panel to the left in the Extensions menu. Click them to remove the checkbox to the left of all ad blocker extensions. If the checkboxes are all clear, you've disabled all ad blockers on Safari. (To enable the ad blocker again, navigate back to this menu and click the toggle switch.)

Alternatively, you can click the extension's icon to the left of the address bar and click to disable the blocker on a specific site.

#### How to disable Ad-blocker in Safari mobile (iPhone and iPad)?

1. **Open the Settings menu** . You'll find this gear icon on one of your Home screens. (If you can't find the Settings icon, swipe your finger to the right on your phone screen until you

2. Scroll down and tap Safari. It's next to an icon that resembles a blue compass in the Settings menu. Content blockers are controlled through the Safari app, and this is where you'll modify your ad blocker's current settings.

Measure	>
Safari	>
Stocks	>

3. Tap the toggle switch will disable the pop-up blocker for Safari. (If you want to disable specific ad blockers interacting with Safari, you'll need to turn this switch on (green) to continue. Otherwise, if you want to turn off all your ad blockers, you're done once you turn the switch next to "Block pop-ups" grey.)

reach a search bar, type "Settings" into the search bar, and tap on the result that appears.)

4. **Tap Extensions.** If you have any third-party ad blocker extensions, you can disable them in this menu. Tap **Extensions** below the "General" header.

## How to disable Security Restrictions in Edge desktop?

- 1. Open Microsoft Edge.
- 2. Click the icon with three horizontal dots in the upper-right corner.

3. Click **Settings.** It's about halfway down the menu next to an icon that resembles a gear piece.

4. Click **Privacy,search, and services**. It's the second option of the left hand side menu. extensions.

5. Scroll down on the right hand side till you reach the "Security" section:
